Job Ready Cohort

Hackathon Phase 1

Hackathon Overview

Title: Influencer/Start-ups Website Build Challenge

Goal: Build a modern, aesthetic, functional brand website for an Indian influencer or start-up using React.

Context: Treat it like a real freelance project — be the sole developer/designer.

Theme

Build a brand website for any Indian influencer or start-up.

Design should reflect 2025 internet trends — bold, clean, creative.

Pages You Must Include (5 Total)

Home Page

- Hero section with intro/banner
- Social links, latest content
- Newsletter or CTA

Products/Services Page

- Display offerings (courses, merch, etc.)
- UI enhancements: hover effects, filters, animations

Product/Service Detail Page

- On-click detail view
- Must have image, description, price, CTA

Login / Signup Page

- Visually appealing auth UI
- Optional Firebase or dummy logic

About Page

- Founder/influencer background, achievements
- Creative layouts (timeline, testimonials)
